ABSTRACT

Data presented on the State University System (SUS) of Florida are presented in the form of tabular displays, charts, graphs, and a glossary. Preliminary sections list members of the State Board of Education and the Florida Board of Regents, provide a description of the State University System of Florida, and list measures used for reporting Florida university quality. The 10 major sections cover the following areas: (1) institutional characteristics (e.g., characteristics of universities and map of institutional service areas); (2) admissions (e.g., headcounts and percentages by type of student and university); (3) enrollment (e.g., average semester credit hour load by student level and age characteristics of students by university); (4) degree programs (e.g., academic degree programs inventory and degrees granted by discipline and institution; (5) student finance (e.g., tuition and required fees per credit hour per semester 1982-83 and summary of financial aid awards to undergraduates; (6) institution finance (e.g., history of appropriations to the SUS 1973-74 through 1982-83); (7) contracts and grants (e.g., total contracts and grants dollars expended by university and by discipline); (8) personnel (e.g., percent and number of SUS total manyears accounted for by each budget entity and number of ranked faculty; (9) functional directory by responsibility; and (10) glossary of about 50 terms and abbreviations. FOREWORD

FACT BOOK 1981-82 is designed to provide timely, accurate and comparative data about the State University System of Florida. It is intended for use by individuals interested in higher education in Florida. Our primary goal is to present summary information in a form which is easy to understand. Information is provided in the form of tabular displays, charts, graphs and a glossary of terms and abbreviations.

Data in the FACT BOOK were gathered from a variety of sources. The primary source documents were the State University System Data Tapes, the Higher Education General Information Survey Reports (HEGIS), annual financial statements, operating budgets, and reports required by the United States Office for Civil Rights.

Although the data presented in the FACT BOOK have been carefully prepared and thoroughly checked by the Board of Regents Staff and the Data Administrators at each University, there is still the possibility for that error. Therefore, if you intend to excerpt portions of this document for publication elsewhere or use its data in major policy development or analysis, we recommend you contact our staff to ensure that you receive any post-publication changes. In order to help this communication, we have placed the initials of the Board of Regents Office responsible for the data presented in the lower left corner of each table or figure. The initials are expanded in the glossary. In addition, a directory of Board of Regents Staff by responsibility has been included.

THE STATE UNIVERSITY SYSTEM OF FLORIDA

The State University System (SUS) was established formally in 1905 when the legislature passed the Buckman Act which consolidated the various post high school institutions into three under a Board of Control. After consolidation, the System consisted of the University of Florida, Florida A&M University, and Florida State University. As the desire for an education continued to grow throughout the state and students demanded advanced instruction within commuting distance of their home, the urban areas started to compete for degree-granting institutions. By 1964, University of South Florida in Tampa was operating Florida Atlantic University in Boca Raton was on the drawing board, and two more institutions, one in Pensacola and one in Orlando, were authorized. In order to enhance coordination of this grow-ing system, the Florida Legislature established the Board of Regents as the single governing board of the state supported universities.

As originally established in 1965, the Board of Regents consisted of nine members; however, today, that number has increased to thirteen. The membership now includes eleven representatives from various geographical areas of the state, who are appointed by the Governor for six-year terms, a student Regent appointed for a one-year term, and the Commissioner of Education. Chief administrative officer of the Board of Regents is the Chancellor. The Board and Chancellor are supported by an office which is structured according to major functional areas: Office of the Chancellor which includes budgeting, Equal Opportunity Programs, Internal Management Auditing, General Counsel, and Corporate Secretary; Academic Programs, which includes program review and academic planning; and Administration and Support which includes management information systems, business and financial operations, construction administration, and personnel and labor relations.

The Board of Regents is involved primarily in policy-making; therefore, its responsibilities include adoption of system-wide rules and policies, planning for the future needs of the SUS, evaluation and coordination of program development, to name a few. Responsibility for the operation of each institution is delegated to the universities. In the state organizational structure, the Board of Regents is placed under the State Board of Education as "the Division of Universities." Thus, the State Board of Education is charged with the responsibility of approving or disapproving all rules and regulations adopted by the Regents and adopting and transmitting to the Governor the SUS Legislative Budget Request.

In 1980, the Postsecondary Education Planning Commission was established as advisory to the SBE on matters relating to postsecondary education.

Today the University System consists of nine universities which are placed throughout the state: in Gainesville, the University of Florida; in Tallahassee, Florida A&M University and Florida State University; in Tampa, the University of South Florida; in Boca Raton, Florida Atlantic University; in Pensacola, the University of West Florida; in Orlando, the University of Central Florida; in Jacksonville, the University of North Florida; in Miami, Florida International University. There are twelve off-campus centers located throughout the state. Also, the University of Florida Institute of Food and Agricultural Science (IFAS) administers seven agricultural research and education centers in addition to 69 county cooperative extension programs. The University of Florida and the University of South Florida have medical schools. UF provides internship and residency programs on campus at Shands Teaching Hospital. USF is expanding their program to include a Cancer Center and Shrine Hospital.

1981-82 had been marked by many significant events. The completion of the Master Plan remained the System's top priority. The Regents moved to strengthen university admissions standards and to seek funding for lower divisions at UWF, FAU, and UNF. Out of the 81-82 appropriation, the SUS received funding to expand its educational efforts in Broward County by $1.7 M and to establish a lower division at FIU in the amount of $1.3 M. Additional funds to continue QIP efforts totaled $11 M and another $5 M was allocated to continue enhancement of scientific and technical equipment needs. Programs in Public Health were expanded to meet critical state needs and efforts began in linking university programs to industry. The architect was appointed and design work began on the $45 M Cancer and Chronic Research and Treatment Center at USF. A new president was appointed for the University of North Florida and searches commenced for replacements as presidents at the University of Florida and Florida Atlantic University announced retirement. Under the Eminent Scholars Act, established in 1979, a total of ten endowed chairs have now been totally funded and twelve were in various stages of funding. A comprehensive study of Student Financial Aid was begun.

CONCEPTS FOR REPORTING FLORIDA'S PROGRESS
TOWARD EXCELLENCE IN EDUCATION IN UNIVERSITIES

In January 1981, the State Board of Education adopted the following resolution:

> On a statewide average, educational achievements in the State of Florida will equal that of the upper quartile of states within five years, as indicated by commonly accepted criteria of attainment.

There are many dimensions to the quality of service rendered by our universities. The Board of Regents formally adopted indicators to be used as criteria for determining the State University System's progress.

Upper Quartile Measures for Comparisons With Other States	Foundational Measures for Determining Progress Within The State University System
Appropriations per headcount student.	Affirmative Action goals.
Contracts and grants per faculty member.	CLAST scores.
Library expenditures per FTE student.	Follow-up studies, findings (placement and performance).
Merit Scholars, number.	Graduate Record Examination scores.
Research library rank.	Specialized accreditation.
	Strengthening undergraduate education.
	Student/faculty ratios.

The State Board of Education concurred with these measures and added the following additional indicators.

Endowed chairs, number.	Percent of full-time faculty with terminal degrees.
Entry level test results.	Percent of minority faculty and administrators.
Graduates with academic scholarships for further study, number.	Percent of students who ranked in top tenth of their high school graduating class.
Licensure examination results.	Program, school or college rank, where existing.
Percent of degree seeking students who are awarded degrees.	State financial aid per FTE student.

NOTE: During the next year the Board of Regents staff will gather SUS and national data which allow the establishment of ranking for Florida's public universities and provide a measurement of the State's achievements toward the upper quartile.

[1] Includes medical professionals.

[2] These students do not pay tuition, are admitted on a space-available basis, and generate no funding for the State University System institutions.

[3] Although SUS Faculty and Staff Fee Waivers were in effect before 1976-77, data on the number of them is not available in the earlier years.

[4] Non-SUS State Employee Fee Waivers went into effect Fall, 1979.

[5] Senior Citizen Fee Waivers went into effect Fall, 1980.

NOTE: Figures have been rounded to the nearest whole number.

SOURCE: Data for 1972-73 through 1976-77 was obtained from Florida's 10-year Summary of Appropriation Data, Department of Administration, Division of Budget, Volume 2, September, 1978. Data for 1977-78 through 1981-82 was obtained from the Student Data Course File Enrollment Reports.

[4]Also includes Shands Teaching Hospital, Veterinary Medicine, and Allied Clinics at UF. In 1980-81 Shands Teaching Hospital became a private non-profit hospital and is no longer associated with the SUS. General Revenue monies are used to contract different programs for services previously rendered by Shands when it was part of the SUS.

[5]Salary increases and other separate appropriations are included.

[6]For the year 1979-80 and 1980-81 there were numerous additional appropriations and transfers made after the Appropriations Bill was approved by the Governor. To more accurately show appropriations for these two years, figures were taken from the Governor's Appropriation Ledgers dated June 30, 1980 and August 31, 1980 respectively. Some of the 1980-81 figures have been revised to reflect changes made after 1979-80 Fact Book was printed.

[7]A number of Administered Funds programs have been transferred to the Department of Education.

[8]Appropriation for 1981-82 as of June 30, 1982, Governor's Appropriation Ledger updated from 1980-81 FACT BOOK to include full salary adjustments mandatory reserves and additional appropriations made throughout the year.

[9]Includes a $5.2 million appropriation for Eminent Scholars.

[10]Includes $2,730,000 New College Endowment Trust Fund.

[11]Includes mandatory reserves of $18,720,920. Source: December 31, 1982, Governor's Appropriation Ledger.

[12]Includes $2,000,000 New College Endowment Trust Fund.

[1]Excludes price level and salary increases on the $2 million provided in 1978-79.

[2]Excludes annualization, price level and salary increases on all funds previously provided for quality improvement.

[3]Excludes annualization, price level and salary increases on supplemental funds provided in all previous years. Also excludes $3,000,000 earmarked for Engineering Programs. This appropriation is included on a separate chart detailing Legislative appropriations for Engineering enhancements.

[4]Excludes $80,000 of 1981-82 funds at UNF.

[5]Excludes annualization, price level and salary increases on funds provided in previous years.

NOTE: In the first year of the quality improvement plans, specific programs were identified by the institutions and approved by the Board of Regents to receive the $2,000,000 supplemental funding to become "Centers for Excellence." In subsequent years, the title was changed by the Legislature and the universities have continued to allocate additional funds to those programs from new quality improvement dollars. Allocated amounts for 1978-79 were as follows: UF-$500,000; FSU-$400,000; FAMU-$100,000; USF-$375,000; FAU-$100,000; UWF-$100,000; UCF-$175,000; FIU-$175,000; UNF-$75,000.
